

Tour 245

Eastern Expedition

At eye level with the wolf

Reisebeschreibung:

The southeast of Mongolia with its idyllic landscapes is still largely untouched. You will experience the freedom, solitude and tranquility only here. The two eastern regions (Dornod and Suchbaatar Aimak) are hardly developed for tourism. The landscape here is characterized by slightly hilly steppes and dry steppes. The Dornod is one of the largest, but also one of the most sparsely populated areas in Mongolia. Among the natural features that make this region unique are the seemingly endless steppe landscape, sand dunes, rivers and beautiful lakes. Completely untouched and in harmony with nature, you can find moose, otters, wolves and lynxes here. The rivers and lakes are clear and very rich in fish.

The area offers many historical sights as well as a rich flora and fauna that can hardly be found in the whole country. Mongolian gazelles, large herds of tens of thousands of head antelopes and occasionally even wolves roam the deserted steppes. Most of the protected areas are located in the southeast for a reason. Birdwatchers will certainly not regret the tour in this region. This region has a special significance because of its function as a resting place for hundreds of thousands of migratory birds.

Archaeological finds from different eras can be seen in several places. This begins with finds from the time of the Huns, to the remains of buildings of the last great barge. Very impressive are the ruins of Cherlen Bars Choto, located in Sumon Tsagaan-Owoo. The ruins are among the oldest buildings in Mongolia.

In the southeast, lives an ethnic minority, the Darigangas. The Darigangas are known throughout Mongolia and partly beyond, because of their gold and silver crafts.

Another attraction is Shiliin Bogd Mountain in Sukhbaatar Aimak with 1778 m the highest mountain in the province. From its summit you can see over 200 extinct volcanoes.

This trip, besides the many geographical sights, also puts an emphasis on the completely untouched wildlife. As often as possible, you will go out into the steppe with an experienced ranger to observe the wildlife..

Delgerkhan is our destination for today. The tomb of Dshingges Khan is believed to be here and there is a small memorial near the village.
Accommodation: Tent meals: B / L / D
3. Tag We drive along the Kherelen River to the district capital Öndörkhan. Öndörkhan used to be only a transit place on the way to the second largest city of Mongolia Choibalsan. Today the town is developing and there is a small museum to visit. The museum is located in the former palace of Tsetsen Khan and it houses a variety of different costumes and artworks from the region. In 2014, the town was renamed Chingges Khan Town. We shop and then the drive continues into the Mongolian steppe towards Barun Urt. Shortly before Barun Urt we will spend the night.
Accommodation: Tent meals: B / L / D
4. Tag Barun Urt is literally at the end of the world. The inhabitants live predominantly from the nearby zinc mine. But Barun Urt is the "gateway" for the east of Mongolia. There is a small monument in honor of Sükhbatar in front of the town hall and about 200 mtr. west of the main square is the small monastery of Erdenemandal, which still reminds something of the old splendor of the city. After replenishing our supplies we will continue south. Around noon we will reach the village of Darin-ganga. Near this place there is the Altan (Golden) Ovoo, which is a sacred place of worship. The Ovoo, located on the highest mountain (extinct volcano) in the region, can be visited only by men. Today we will spend the night at the lake Gangaa nuur, which is important for the bird life. Also here is a small sacred spring a little north on the lake shore, much used by the local nomads.
Accommodation: Tent meals: B / L / D
5. Tag Today is the entire day for the Gangaa nuur is an important resting place for migratory birds that need to cross the Gobi. The region includes three lakes, Ganga Nuur, Cholboo Nuur and Tsagaan Nuur, all of which are not far apart.
Accommodation: Tent meals: B / L / D
6. Tag Today we will drive first to the fossil sand dune Motzog Else and then to the largest cave in Mongolia - Taliin Agui. The cave is a lava cave, and often there is ice in the cave well into the summer, which was formed there in the winter. We will enter this cave system.
Accommodation: Tent meals: B / L / D
7. Tag Today we will drive to the not far away volcano Shiliyn Bogd Uul. Around this volcano, which is located in sight of the Chinese border, there are many legends. In the past, women who were to be "forced to marry", but did not agree, threw themselves from the edge of the volcano. Today, husbands go there to "make amends" for their missteps. The landscape is unique, everywhere are small volcanic cones in the grassy landscape.
Accommodation: Tent meals: B / L / D
8. Tag We leave the Shilian Bogd Uul region and continue east. We reach the village of Erdenetsagaan to do some shopping before heading to Lkhachinvandad Uul National Park..
Accommodation: Tent meals: B / L / D
9. Tag Today we will stay in Lkhachinvandad Uul National Park. This park was created to protect the very rare Ussuri moose. The Ussuri moose is the smallest moose species. Whether we will see this moose species on our trip is uncertain. But still, the unique landscape in Lkhachinvandad Uul National Park will inspire us. But for sure we will see gazelles, antelopes and many other steppe animals.
Accommodation: Tent meals: B / L / D
10. Tag Today we have grassland "Satt". We drive from Lkhachinvandad Uul National Park to Dornod Mongolyn National Park through a vast grassland.

11. Tag Excursion in Dornod Mongolyn National Park. This national park is characterized by the fact that here still exists only intact steppe grassland in Asia. The national park is located at an average altitude of 800 meters above sea level. We will be able to see a variety of wild steppe animals on our way through this national park. The park is home to the largest Mongolian Gazelle herds in Asia. The region is home to the minority Dornod nomads who, due to their remoteness, have been able to preserve many of their traditions and traditional crafts.
Accommodation: Tent meals: B / L / D
12. Tag We will leave Dornod Mongolyn National Park and drive to Nömrög National Park. This national park is located in the very east of Mongolia. We will reach the park in the evening.
Accommodation: Tent meals: B / L / D
13. Tag Nömrög National Park was completely closed for a very long time because it was very difficult to reach. Here the flora and fauna has been able to develop undisturbed by all external influences. Even today this national park is very difficult to reach. We have two full days to explore the national park.
Accommodation: Tent meals: B / L / D
14. Tag In Nömrög National Park
Accommodation: Tent meals: B / L / D
15. Tag Today we leave Nömrög National Park and drive north to Khalingol.
